## PROFESSIONAL SUMMARY

Versatile and detail-oriented Full-Stack Developer and QA Engineer with a **B.Sc.** in Computer Science from Debre Markos University. Proficient in multiple programming languages including C++, Java, Kotlin, and C#, with strong expertise in frontend (HTML, CSS, JavaScript, React, Bootstrap) and backend (PHP, Python/Django, Node.js) development. Experienced in database management with SQL (MySQL, PostgreSQL) and NoSQL (MongoDB). Combines development skills with quality assurance mindset to deliver robust, scalable, and user-centered web applications.

## EDUCATION

### **B.Sc.** in Computer Science

Debre Markos University | 2022 – 2025

Exit Exam Score: 76%

## TECHNICAL SKILLS

| Category                         | Technologies                                                                                        |
|----------------------------------|-----------------------------------------------------------------------------------------------------|
| <b>Programming Languages</b>     | C++, Java, Kotlin, C#, JavaScript (ES6+), PHP, Python                                               |
| <b>Frontend Development</b>      | HTML5, CSS3, JavaScript, React.js, Bootstrap, Responsive Design                                     |
| <b>Backend Development</b>       | PHP, Python (Django), Node.js, RESTful APIs                                                         |
| <b>Databases</b>                 | MySQL, PostgreSQL, MongoDB                                                                          |
| <b>QA &amp; Testing</b>          | Manual Testing, API Testing (Postman), Test Case Execution, Bug Reporting, JIRA, Regression Testing |
| <b>Tools &amp; Methodologies</b> | Git, Agile/Scrum, SDLC, Figma (UI validation)                                                       |

## WORK EXPERIENCE

### Quality Assurance Engineer

Convex Technology | November 2025 – Present  
*Addis Ababa, Ethiopia*

- Conduct API testing using Postman for sportsbook and third-party integrations (wallet, transactions, bonus flow)
- Perform end-to-end testing (front-end and back-office) for bet placement, odds validation, and settlement logic
- Detect critical defects and execute regression testing to improve platform stability and release quality
- Generate and analyze QA reports, track defects, and monitor testing progress using Jira Board
- Ensure release quality before deployment

### QA Intern

Convex Technology | October 2025 – November 2025

- Prepared and executed test cases for bet placement, odds validation, and settlement logic
- Performed UI testing (web & mobile) based on Figma designs to ensure correct implementation

## PROJECTS

### Inventory Management System *(Final Year Project)*

- Designed and developed a full-stack web-based Inventory Management System to streamline tracking, updating, and reporting of stock levels for businesses
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap for responsive user interface
- **Backend:** PHP with Laravel / Python Django for business logic and API endpoints
- **Database:** MySQL for relational data storage (products, categories, users, transactions)
- Implemented user authentication, product categorization, real-time stock monitoring, and automated report generation

- Reduced manual inventory errors and improved reporting efficiency for small to medium businesses

## ADDITIONAL PROJECTS & SKILL DEMONSTRATION

- **Multi-language Console Applications:** Developed CLI tools using C++ and Java for data processing and algorithm demonstrations
- **Android App (Kotlin):** Built a simple inventory tracking mobile interface integrated with REST API
- **C# Desktop Utility:** Created a Windows Forms application for local inventory logging with SQLite

## LANGUAGES

- **Amharic** – Native
- **English** – Fluent

## SOFT SKILLS

- Problem Solving & Critical Thinking
- Attention to Detail
- Adaptability & Quick Learning
- Time Management
- Effective Communication
- Team Collaboration

## CERTIFICATIONS & TRAINING

- Full-Stack Web Development Certification
- Java Programming / Kotlin for Android
- API Testing with Postman
